SAN JOSE
CALIFORNIA

WALNUTS IN NURSERY ROW

Picture showing Lath House for growing Ornamentals on our 70 acre Nursery
and ranch at Morgan Hill, California.

Our Lath House and Salesyard at 1835 The Alameda, San Jose, California

ORNAMENTAL and FRUIT TREE CATALOG

OFFICE AND SALESYARD. Our office and salesyard at 1835 The Alameda, San Jose (on the San Francisco—Los Angeles Highway, between San Jose and Santa Clara), is for the convenience of our customers and prospective customers. Visitors are always welcome.

OUR NURSERIES at Morgan Hill and Santa Cruz are located where climate, soil, and other conditions are best adapted to the particular stock grown.

FRUIT TREE STOCK we are now growing in Contra Costa County, near Brentwood, where more distinct seasons cause the deciduous trees to become dormant at the proper time; water is plentiful for irrigation, and the soil is free of all pests.

NATIVES. We have the most complete stock of Native trees and plants in Northern California, and are always advocating their planting. Many public and private grounds are being planted entirely with trees and shrubs native to California. The very best effects can be obtained from the standpoint of both beauty and utility.

CORRESPONDENCE. The founder of this nursery, Mr. Leonard Coates, has always endeavored to render the utmost service to the public by answering letters of inquiry promptly and carefully. Write us regarding all orchard and garden subjects. We are in touch with thousands of growers, and are glad to pass along any good ideas, as well as suggestions based on our own experience.

TERMS. A 20% deposit is requested when order is placed. Unless previous arrangements have been made for terms, stock will be shipped C. O. D.

SUBSTITUTIONS. Always state, in a mixed order, if substitutions may be made or not. If "no substitution" is written on order, such instructions will be carefully heeded.

RESPONSIBILITY. We cannot be held liable for any damage that may result from delays or damage in transportation.

GUARANTY. While we exercise the greatest care to have all our stock true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any greater sum than that originally received for said trees, etc., that may prove untrue. All orders and contracts taken depend on crop failure, flood, fire, or accident beyond our control.

COMPLAINTS. All claims for shortage, or any other possible mistakes, must be made within ten days after receipt of stock or they will not be allowed.

PACKING. This is done in the best manner, and charges made simply to cover cost of material used. No charge for cartage to railroad. The charge per bale will amount to about 25 cents to \$3.00, according to size; and for ornamental stock, from 25 cents to \$1.50 per box; small plants in flats, 15 cents each flat.

PLEASE NOTE: We sell Fruit Trees in quantities of

10 to 50 (of one variety) at 10 rate

50 to 300 (of one variety) at 100 rate

300 or more (of one variety) at 1000 rate

ORNAMENTALS, five at 10 rate; for larger quantities, rates on application.

We are prepared to submit plans and estimates of cost for landscaping large or small gardens, installing automatic or other sprinkling devices, and lawn-making, as well as furnishing and planting the trees, shrubs and plants needed.

FRUIT TREES

Note: Trees may be slightly longer or shorter than grade specifies, in order to be more uniform in caliper.
Discount: 10% for cash with order.

PRUNES

SPECIAL NOTE

To Prune Growers: A demand for the dried Coates 1418 (French) Prune has developed ahead of the supply. One Eastern Packer of high grade food products, with whom we are in correspondence, wants 100 tons the first year, 1926, as a starter, and expects to use much more later. The Coates 1418 is worth more than others of the same grade, 30-40s, so suggest you see that they are picked, dried and binned separately. Get a separate warehouse receipt. Please keep us posted regarding your tonnage and where delivered, and demand at least one cent more per pound for the best Coates 1418. The Association or Independent Packers can get more.

PRUNES ON ALMOND, APRICOT AND PEACH ROOT

	Each	10	100	1000
"4 to 6 ft." grade.....	.60	.50	.45	.40

Vegetable Seed, 15c packet. 5 or more postpaid within the third zone. Cash with order.

Beet	Radish
Carrot	Beans
	Corn

LEONARD COATES NURSERIES—SAN JOSE, CALIFORNIA

The letters following names of ornamentals refer to price schedule on page 18. This method was adopted by us some years ago in an endeavor to avoid the old "hit or miss" method of pricing ornamental nursery stock. While there are hundreds of varieties catalogued and sold by the nurseries of to-day, there are only about 25 groups in the matter of average cost of production. When the plants are properly grouped, the buyer can rest assured that he is not being overcharged. These Prices apply to Nursery Run. Special Prices will be made for Specimen Plants.

DECIDUOUS TREES

(Sold with bare roots during the winter planting season; a few specimens held in large cans for delivery the balance of the year.)

ACER campestre.	Hedge or English Maple. Recommended for Calif.....	M
<i>dasycarpum.</i>	Silver Maple. Rapid grower; excellent street tree.....	M
<i>macrophyllum.</i>	Oregon Maple. Also a native of California.....	M
<i>platanoides.</i>	Norway Maple	M
<i>rubrum.</i>	Scarlet Maple. Beautiful tree, but a moderate grower.....	M
<i>saccharum</i>	M
AESCULUS californica.	Calif. Buckeye. Early to leaf out; white flowers.....	L
<i>hippocastanum.</i>	Horse Chestnut. Pink flowers in early spring.....	N
ALBIZZIA julibrissin.	Silk Tree. "Pink Acacia"	N
AMYGDALUS communis.	Large flower alm. double pink.....	M
<i>nana.</i>	Dwarf, double pink.....	M
<i>persica.</i>	Pink flr. Peach.....	1.50
<i>persica versicolor.</i>	Pink and white; very beautiful	1.50
<i>persica.</i>	dbl. red flr. peach.....	1.50
	Fl. alm. also in 5 gal. cans.....	\$1.50

ASH. See *Fraxinus*.

BETULA alba.	White Birch.....	N
BUCKEYE.	See <i>Aesculus</i> .	
CASTANEA sativa.	Spanish Chestnut.....	M
CATALPA bungei.	Manchurian C. 8 ft.	\$3.00 each
<i>speciosa.</i>	Western Catalpa. Big white flowers, very large leaves.....	M

CERCIS canadensis.	American Red Bud. M
<i>occidentalis.</i>	California Red Bud. Smaller tree than <i>canadensis</i> , but equally beautiful
	M

CHERRY, flowering, see *Prunus*.

CRAB, flowering, see *Malus*.

CRATAEGUS coccinea.	Scarlet Thorn. Large red berries.....	C
<i>crusgalli.</i>	Cockscomb Thorn. Red ber.....	M
<i>double pink.</i>	Hawthorn.....	M-1
<i>oxyacantha splendens.</i>	Paul's Double Scarlet Hawthorn.....	M-1

DIOSPYROS virginiana.	Common persimmon seedlings	M
ELDER.	See <i>Sambucus</i> .	
ELM.	See <i>Ulmus</i> .	
FRAXINUS americana.	American or White Ash	M
<i>velutina.</i>	Arizona Ash.....	M
GINGKO biloba.	Maiden-hair Tree.....	N
GYMNOCLOADUS dioica (G. canadensis)	Kentucky Coffee Tree.....	M
HICORIA.	Pecan, a fine shade tree.....	L
HORSE CHESTNUT.	See <i>Aesculus</i> .	
JUGLANS californica.	Black Walnut.....	K
KOELREUTERIA paniculata.	Varnish tree. Very handsome in leaf, flower and seed	M
LABURNUM vulgare.	Golden Chain. Yellow flowers	M
LARIX decidua.	European Larch.....	N
<i>occidentalis.</i>	Western Larch.....	N
LINDEN.	See <i>Tilia</i> .	
LOCUST.	See <i>Robinia</i> .	
MALUS angustifolia.	Southern Fl. Crab M-1	
<i>Bechtels Flowering Crab (M. ioensis bechteli)</i>	M-1
<i>floribunda.</i>	Jap. Fl. Crab.....	M-1
<i>floribunda purplea</i>	M-1
<i>niedzwetzkeyana.</i>	Redveini Crab.....	M-1
<i>spectabilis.</i>	Chinese Fl. Crab.....	M-1
	Fl. Crab in 5 gal. cans.....	1.75
MELIA azedarach unbraculiformis.	Texas Umbrella	M-1
MORUS nigra.	Persian Mulberry. Fruit very good for home use.....	N
<i>tatarica.</i>	Russian Mulberry.....	L
MT. ASH.	See <i>Sorbus</i> .	
MULBERRY.	See <i>Morus</i> .	
PAULOWNIA tomentosa.	Royal P.....	M-1
PISTACIA vera.	Green Almond. Grows in some of the driest land.....	M
PLATANUS orientalis.	European Plane. The best all-around shade tree.....	M-1
PLUM, flowering.	See <i>Prunus</i> .	
POPULUS.	Silver Poplar.....	L
	Lombardy Poplar	L
PRUNUS cerasus.	Chinese Cherry. "Tangsi." Fruit ripens three weeks ahead of any other; also very handsome in flower and foliage, the leaves being large and light green in color....	N
<i>cerasus.</i>	Double pink flower, cherry. In 5 gal. 3/4 ft.....	each 2.50
<i>cerasus.</i>	Double white flower, cherry. In 5 gal., 4/5 ft.....	\$2.50 each
Purple Leaved Plum (P. pissardi).	Cherry Plum, fine for jelly.....	M-1
<i>demissa.</i>	Western Choke Cherry.....	M
<i>mume.</i>	"Dawn," Jap. Fl. Apricot.....	M-1
<i>cerasus.</i>	Weeping Fl. Cherry, 5 ft.	\$4.00 ea.
<i>Pissardi moserii.</i>	Dbl. pink flrs.....	M-1
<i>triloba.</i>	Flowering plum. 5 gal.....	\$1.50
REDBUD.	See <i>Cercis</i> .	

LEONARD COATES NURSERIES—SAN JOSE, CALIFORNIA

ROBINIA hispida. "Rose-acacia," rose-colored flowering Locust.....N	CYDONIA japonica. Flowering quince, strikingly beautiful red flowers.....C
<i>langleyi.</i> Pink flower. Locust.....N	
<i>pseudacacia.</i> Common or Black Locust. White flowersL	
SALIX babylonica. Babylon Weeping WillowL	
SAMBUCUS. Golden Elder. (<i>S. canadensis aurea.</i>) Berry, black; very good for piesM

the quality. These tools are made by The Village Blacksmith Folks, of Watertown, Wisconsin. Quoting the manufacturer, in part, "Goods are more often judged by their finish and appearance—rather than by their wearing and intrinsic values—and therefore our success is dependent upon the appreciation and understanding of our processes, methods, and aims, by those engaged in their selling."

"It is a known fact and we advertise to follow very closely the 'Olden Times' way of making goods in our shop and we have made possible the making and the marketing of VILLAGE BLACKSMITH products on a commercial basis—and within the means of all who appreciate quality."

COATES 1418 FRENCH PRUNE

LEONARD COATES NURSERIES—SAN JOSE, CALIFORNIA

EXPLANATION OF SCHEDULE OF PRICES
ORNAMENTAL PRICE LIST

You will note that each variety among our ornamentals is followed by a letter, viz: A, G, N, etc. These letters refer to our price schedule. For instance, after the description of *Betula alba*, you will find the letter "N." Referring to this schedule you will find "N" 5-6 ft. priced \$2.00 each and \$18.00 per 10. Likewise *Hicoria*, *Pecan* is followed by "L," and has a range from 2-6 feet. You will find under "L" 4-5 ft. 70c each and \$6.30 per 10, 5-6 ft. 80c each and \$7.20 per 10, and so on.

We sell 5 of one kind at 10 rate, less at each rate.

GROWERS of COATES 1418 FRENCH PRUNES-

Please advise tonnage you expect to produce of the Coates 1418 French prune in 1926. We need these figures because packers of high grade food products are demanding this variety for their best pack, and are trying to locate enough fruit. Dry and bin them apart, and get a separate receipt from the Association or Packer with whom you deal. The best Coates 1418s should bring you at least one cent per pound more than the same grade of ordinary French.

I expect to produce _____ lbs. dried Coates 1418s in 1926, and the crop should increase _____ % a year for _____ years. My dried prunes are delivered to _____

Signed _____
